Office of Science Laboratory
Operated by The University of Chicago*

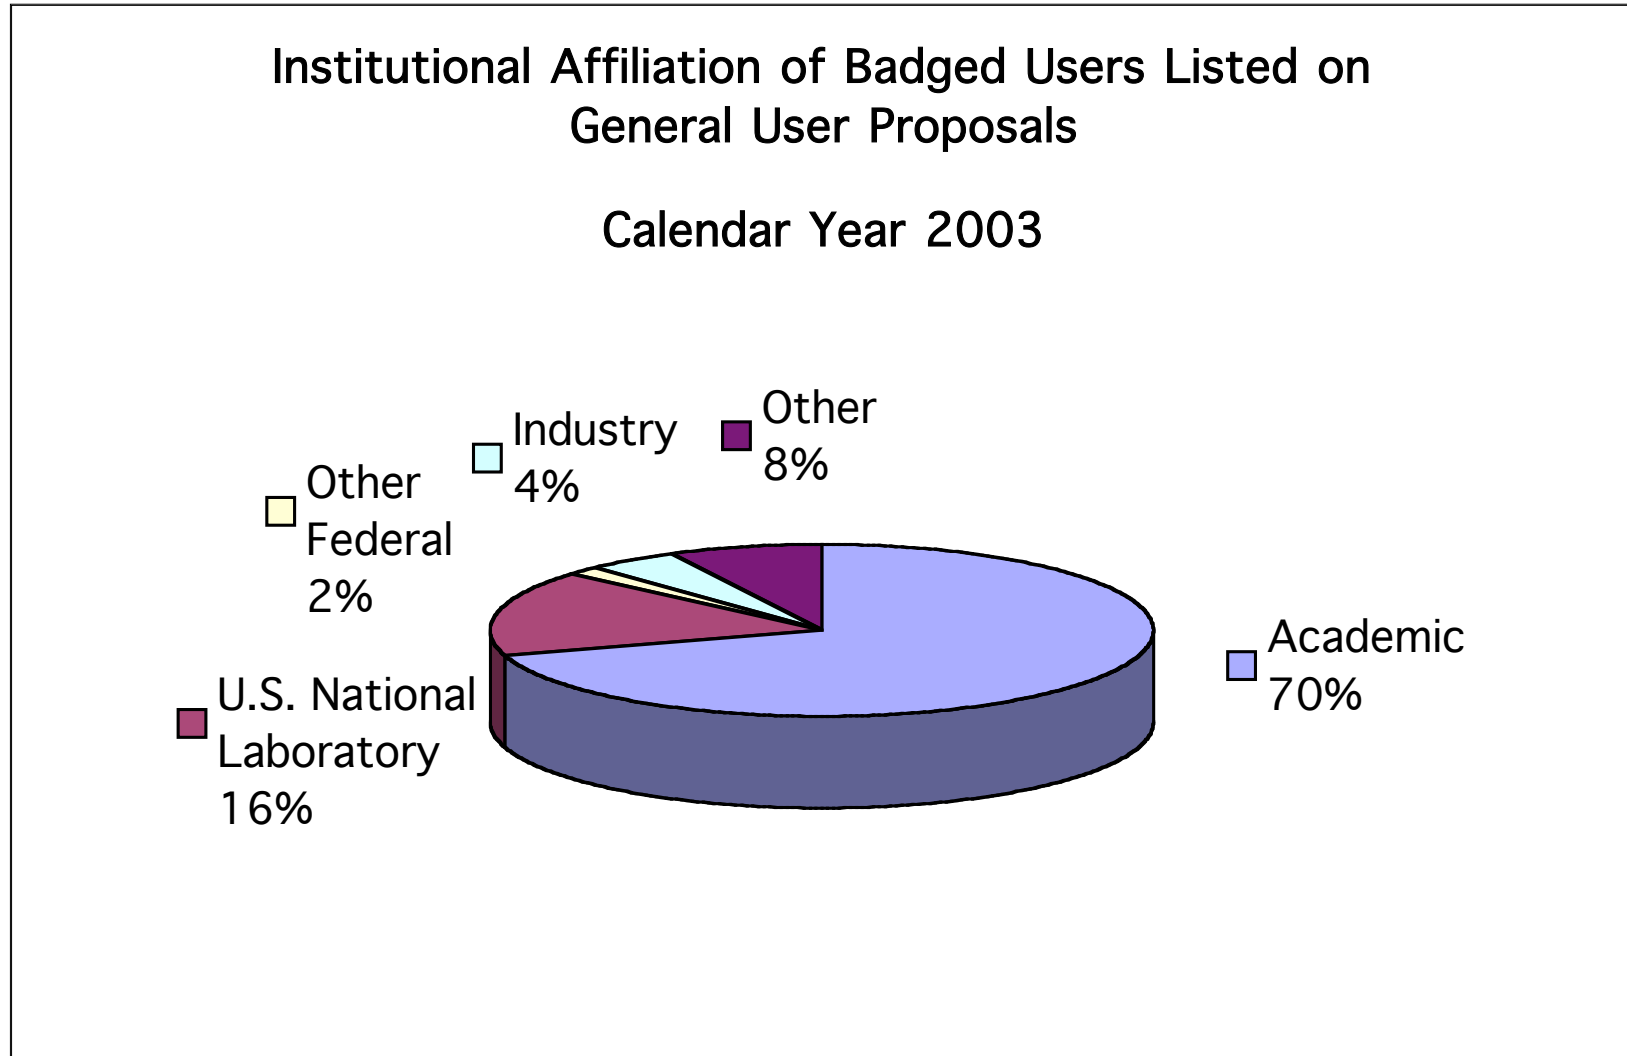

General User Program Statistics

Cycle	Number of New Standard Proposals for Review	Number of Standard Requests for Beamtime	Number of Rapid Access Requests	Number of Shifts Available for GU Proposals	Success Rate
2003-1	230	320	20	2500	60%
2003-2	320	350	70	3000	66%
2003-3	320	420	80 (est)	3000	63%
Total	870	1090	170 (est)	8500	63%

General User Proposals by Subject Area

General User Proposals by Affiliation

General User Program

The deadline for General User Proposals for Run 2004-1, which starts January 19, 2004 and ends April 19, 2004, is:

November 7, 2003

Partner User Proposals

- The deadline for the first call for Partner User Proposals or PUPS of limited scope recently passed and 19 PUPS were received (one was withdrawn before being reviewed).
- The PUPS were forwarded to a subset of the Scientific Advisory Committee (SAC) - the SAC Screening Committee - for their comments/evaluation.
- Based on the Screening Committee's recommendations:
 - 10 were approved (including 2 transition/continuation plans)
 - 7 were turned down (including 1 that was not of “limited scope”)
 - 1 under further consideration

PUPs for 2004 and beyond

Partner User Proposals may be submitted at any time for future runs (Run 2004-1 or later).
